## Classcharts App

We are making communication easier, faster and more effective

From September 2018 we have combined our online homework management system 'Show my Homework' with our positive and negative behaviour management service into a new system called 'Classcharts'

### Download the Classcharts app

If you have a smartphone, you can access this service by downloading our app (Android and iPhone). The app is titled 'Classcharts Parents' by Edukey Ltd. This system can alternatively be accessed through any web browser at [www.classcharts.com](http://www.classcharts.com).

Once installed, accessing the service is quick and simple to do. All you need is your email address and an access code supplied by the school.

On the website or app home screen on first use tick the button 'I don't have an account yet' and then complete the form with your personal email, code name and set yourself up a password.
