

Selston
HIGH SCHOOL

Gateway App

We are making communication easier, faster and more effective

This service combines the features of a 'Parent Portal' with the text and email service. This means that we can communicate with parents more quickly, cost effectively, and give you a 'live' overview of your child's attendance and progress at school.

Download the School Gateway app

If you have a smartphone, you can access this service by downloading our app (Android and iPhone). The app is titled 'School Gateway' published by Isuz limited and can be found in both the Google Play and Apple store.

Once installed, accessing the service is quick and simple to do. All you need is your email address and mobile number that the school holds on record for you. Once this information is entered, you will be texted a pin number which will allow you to access the service.

Use of this service will be restricted so do not worry that by signing up you will be receiving a stream of unnecessary messages and, of course, your data will remain confidential and will not be shared with any external companies or agencies.

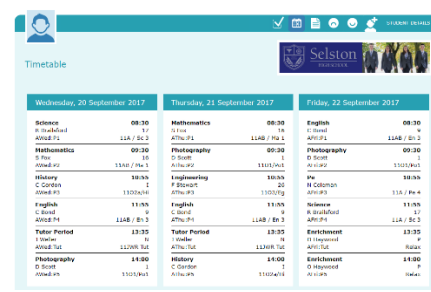

Note: To use this service school needs to hold both a valid email address and a mobile phone number for you as the main contact. To check this information please contact school.

For any technical issues or support please leave your details with reception or email enquiries@selstonschool.org.uk and Mr M Underwood will call you back.

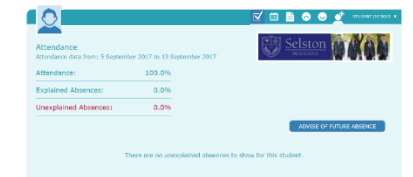

The main summary screen

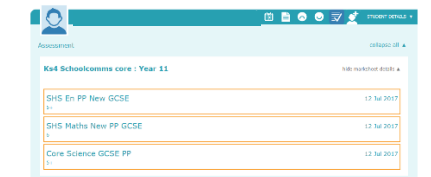

View your child's live timetable

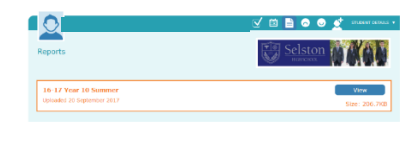

Check your child's attendance. Advise of reasons for past and future absences online

Check your child's last tracking grades and their key passwords etc.

View online copies of your child's latest reports and key documents

Once you have installed the app you can also access the portal at <https://login.schoolgateway.com/>
